

Hello. I'm

Anshil P

Full-stack Developer

+91-9074845243 contactme@anshil.me anshil.me

Eager and dedicated Fullstack Student Developer, Capable of navigating through challenging problems with a thoughtful and analytical mindset. I'm constantly fueled by my curiosity, always seeking to broaden my knowledge. I'm actively seeking professional environment where I can collaborate, innovate and receive mentorship to carve out a successful career.

Experience

JAN -MAY 2023

Project Trainee

Zoho Corporation

- Developed a collaborative development utility using Swift, AppKit, Node.js, and NoSQL databases.
- Designed an intuitive Swift and AppKit-based user interface, enhancing user experience and usability.
- Engineered a robust Node.js backend with NoSQL databases for efficient data management, enabling seamless developer collaboration and scalability.

JAN -JUL 2022

Fullstack Developer Intern

Maiora IT Services and Consulting Pvt Ltd

- Spearheaded the development of a comprehensive On-Shelf Stock Management System, utilizing Flutter for the frontend and Node.js microservices for the backend.
- Implemented continuous process improvement measures, leading to notable enhancements in stock management workflows and overall operational efficiency.

OCT 2021 - JAN 2022

Student Developer Intern

Future Ready Talent

- Acquired practical expertise through Azure Services training, demonstrating competence in cloud technologies.
- Developed a Student ID Verification System using Next.js and harnessed the power of Azure Cognitive Services, showcasing the ability to apply Azure knowledge to create a cutting-edge, real-world solution.

Education

Karunya Institute of Technology and Sciences - 2023

Electronics and Communication Engineering (Specialized in IoT)

HMYHSS, Manjeri - 2019

Higher Secondary Education (89%)

Technical High School, Manjeri - 2017

High School Education (100%)

Skills

Python

Javascript

Programming

Projects

MedWiz – All in One Health Assistant Service

Under Development

- Personal Health Records, Medicine Finder, Doctor Booking, Lab Reports and more.
- Built over the ABHA Systems for secure Data Management.
- Implemented the app in React (PWA).
- **Tech Stack:**

ReactJS

NodeJS

ExpressJS

Python

Docker

DigitalOcean

PostgreSQL

MongoDB

XPM – Project Management Tool

Online

- Dedicated Tool For XCODE Developers to collaborate.
- It includes various tools to manage and debug.
- Including Tools to debug database, network request response and One Stop for String management.
- More Simplified UI for XCODE build settings and more.
- **Tech Stack:**

Swift

AppKit

SwiftUI

NodeJS

MongoDB

Sqlite

Advanced System For Implementing Vehicle Ecosystems and Management

Online

- Generalized Solution For All Vehicle Based Businesses.
- Customizable add-ons for enabling solutions like, POS, Tracking, Monitoring, etc.
- React Based Easy and Customizable Dashboard.
- **Tech Stack:**

ReactJS

NodeJS

ExpressJS

Firebase

IoT

Azure

Embedded Systems

StockIT – On-Shelf Stock Management

Online

- On-Shelf Stock Management Application for stores.
- Also includes employee and inventory management.
- **Tech Stack:**

Flutter

NodeJS

ExpressJS

Firebase

PHP

SQL

Other Tools

Flutter

React.js

Node.js

Next.js

JQuery

Docker

Azure

IoT

DigitalOcean
